MA323 PLUS

M MULTIFUNCTIONAL SERIES
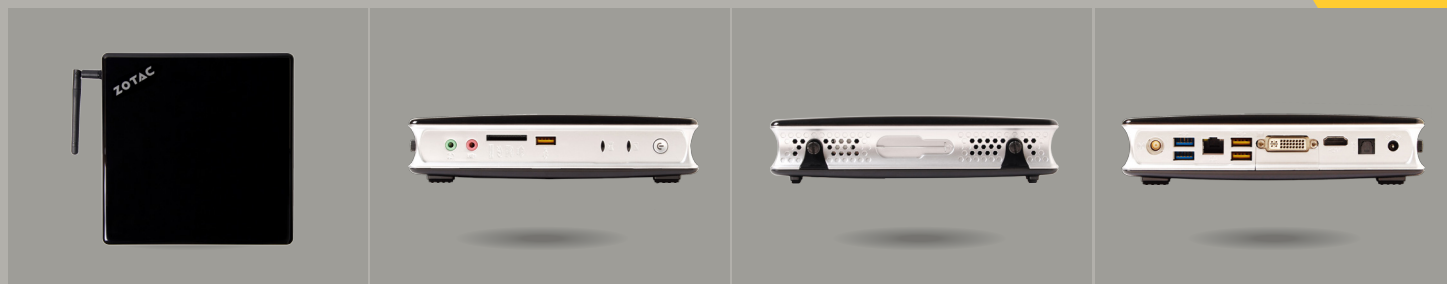

The ZOTAC ZBOX MA323 series strikes the perfect balance between size and power, capable of electrifying your PC experience while minimizing carbon footprint. Utilizing the efficient AMD Beema APU, both the processing power of a quad-core CPU and the blazing speed of a discreet AMD Radeon graphics are contained in one energy efficient module.

Equipped with the AMD E2 quad-core processor, the ZOTAC ZBOX MA323 series rivals large form computing while using much less space. This PLUS unit also comes with 4GB memory and 500GB storage pre-installed. Combined with a range of connectivity options including 802.11ac WiFi, this ZBOX mini-PC livens up the daily life with snappy responses and smooth HD playback capabilities.

technical specifications

FEATURES
